ABOUT US

Quality is our trademark.

In the summer of 1985 college friends **Bill Merkler** and **Walter Bostian** started **Down To Earth Landscaping, Inc.** Both worked their way through college by commuting an hour away to complete customers' projects, all while attending classes full-time.

For 35 years, Bill and Walt have grown their friendship and expanded Down To Earth Landscaping, Inc. to provide award winning design and outdoor solutions for their clients.

“It has always been important for me to ensure that my design work strikes a balance between a client’s vision, architectural symbiosis, site relevance, function, and the right plant for the right place.”
-Mark, *Landscape Designer*”

The Down to Earth Team works year-round with residential property owners, businesses, state run facilities and parks to provide high quality landscape design services both inland and at the shore in New Jersey, Pennsylvania, Maryland, Virginia and DC.

From our land to yours.

Additionally, after the design process is complete **we source plants from our own nursery, Ocean Wholesale Nursery**, to complete your project on-time and with top quality plants we grow ourselves!

OUTDOOR LIVING

Dynamic and entertaining outdoor spaces that combine function and beauty, designed just for you! Our team is with you from start to finish as we turn your property into a dream landscape.

**DOWN TO EARTH
LANDSCAPING, INC.**

QUALITY is our trademark.

OUR PROCESS

1

Our trained landscape designers and architects will review your landscape needs and vision.

2

After the initial meeting, our landscape designer will work to develop the plans to bring your ideas to life.

3

Once the plan is approved, a qualified project manager is assigned to your proposal to be your point of contact and answer any questions.

4

Our landscape designer works with you as your plan evolves and will source the best materials to match your needs.

HARDSCAPES

DOWN TO EARTH LANDSCAPING HARDSCAPES

DOWN TO EARTH LANDSCAPING can turn your outdoor space into a work of art.

Our hardscape professionals have experience in all types of patio choices including pavers, wet or dry laid natural stone, and brick. Our design team will work closely with you to determine your needs and develop a design you will cherish and enjoy for years to come.

► BUILT FOR EFFORTLESS BEAUTY

We only carry the highest quality of pavers that will not expose heavy aggregate as they wear. The ultra-dense surface has more color and more protection, ensuring a lifetime of beauty with minimal maintenance. Plus, we have paver options that can perfectly match any style! Additionally, Down to Earth has you covered from the bottom to the top ensuring your hardscape plan includes any necessary drainage installation recommendations.

WHAT OUR CUSTOMERS SAY

★★★★★ REBECCA K.

"We have been working with John as our landscaper for a few years now and he has been wonderful. Just recently, we tasked him and his team with redoing our backyard and I can't say enough good things. Our yard turned out better than we could have hoped. He's communicative, hard working, and trustworthy. Not to mention, the guys on his team are great! Highly recommend working with John for all your yard needs."

★★★★★ MARY V.

"Down to Earth is a wonderful landscaping company. The crews are all well experienced and hard working. The managers are very communicative and responsive. I've been in the property management world for over 10 years and have worked with many landscaping companies. Down to Earth is a very worthy landscaping company that you should use."

★★★★★ CHRIS F.

"We highly recommend Down to Earth Landscaping! They designed and installed a patio, the landscaping around it, and the landscape lighting. Part of the design that I had approved, I ended up disliking once it was installed, and they came up with a new design! We definitely will use them in the future to finish some landscaping in the yard that still needs to be done."

★★★★★ TOM C.

The landscaping for our new home in Avon by the Sea was done by Down to Earth two years ago, it was excellent and their follow up was top notch. This spring we did major landscaping work to include pavers, stepping stones, trees, shrubs, irrigation, drainage and a fence. The design by Rusty Bell was first rate and each of the pieces of the project were done with utmost care and professionalism. The ownership team is responsive and true to its word. I would strongly recommend Down to Earth for any landscaping or hardscaping needs!"

JAMES AND TERESA ★★★★★

"We recently hired Down to Earth Landscaping to redo our front walkway steps, backyard patio, driveway, and outdoor shower area. We were given advice on which pavers and design would best suit our home and we had the opportunity to view the sample materials we requested ahead of time. The work was completed in a timely manner and our property was kept neat and clean. **The final result was beyond our expectations! The steps and front walkway are absolutely beautiful and we have received many compliments on the work.** The expertise in landscape design is evident, and the employees were professional and polite."

ERIKA D | MANAGING AGENT FOR THE BOARD OF TRUSTEES

"**The Board of Directors for First Jefferson Condominium Association is overwhelmed by the attention and care that Down To Earth, led by Jackie Braymiller, has given to the community.** For the first time in years, residents are able to enjoy the outdoors where the grass is growing, trees and shrubs are trimmed, and weeds do not overrun the community."
