

## ANNUAL IRRIGATION MAINTENANCE CONTRACT

Down To Earth Landscaping, Inc is offering three levels of annual service contracts for our customers. Benefits of an annual service contract include automatic scheduling for Start-ups, Winterizations and Walkthroughs, and priority scheduling for potential in-season service calls.

Basic	Plus	Premium	Service
✓	✓	✓	Start-Up
✓	✓	✓	Winterization
	✓	✓	1 <sup>st</sup> Walkthrough
		✓	2 <sup>nd</sup> Walkthrough

- **Start-Up-** The irrigation system is turned back on and thoroughly checked for leaks. All zones are run, to make sure every sprinkler head is performing properly and covering its intended area. The system's control unit is checked to make sure it is programmed properly. A separate proposal will be provided for any repairs if exceeding pre-authorization.
- **Winterization-** The ideal way to protect your irrigation system during the off season. The water is turned off, power is shut down to the irrigation system and control unit, and water is blown out of all the lines.
- **Walkthrough-** A midseason irrigation check. Our technician runs through your entire system to make sure all aspects of your irrigation system are functioning properly. Any necessary adjustments to the watering schedule will be performed. If needed, run times will be increased to more accurately meet the demands of mid-summer heat. A separate proposal will be provided for any repairs if exceeding pre-authorization.

Down To Earth Landscaping realizes that most homeowners are busy and cannot always be home when we come by to service their system. We ask that all service contract customers choose a **preauthorization** level for additional repairs. Our levels are listed on the following page.

\* Once your contract and payment information is received by Down To Earth Landscaping, you will be automatically scheduled for your start-up, winterization and walkthrough(s). In order for us to be as efficient as possible, we schedule these services by neighborhood. We will contact you in advance with your scheduled date and remind you to leave us access to your control unit if you will not be home.

\*If you do not wish to enter into a contract, no action is required at this time. However, you will be responsible for contacting Down To Earth Landscaping to schedule your Start-Up and Winterization as available in your area at our full service rates \$115.
